# Sydney Career Forum 2015

Job fair for Japanese-English bilinguals

16th (Sat) & 17th (Sun) May 2015  
9am Check In, 10am Open – 5:30pm Close  
Australian Technology Park, Sydney  
Room: Atrium Bay 4

## What DISCO's Career Forums have to offer:

- ◆ 260,000 bilinguals have met over 7,000 world-leading corporations at our events
- ◆ Opportunities to appeal to these companies' recruiters through interviews and receive job offers on the spot
- ◆ Company seminars provide a chance to learn directly from and interact personally with industry leaders

### Step 1

#### Pre-register

Prior to the event, please pre-register at the Career Forum website:

[www.CareerForum.Net](http://www.CareerForum.Net)

Once complete, please continue to the Sydney page to register for the event.

### Step 2

#### Apply to Companies

Many exhibiting companies accept preevent applications and carry out preliminary online interviews. To maximise your efficiency, we strongly encourage you to pre-apply to as many companies as possible. New information and exhibiting company profiles are updated periodically and are available at CareerForum.Net.

### Step 3

#### Attend the Event

Be sure to bring updated copies of your resume to the event and dress professionally. Many companies give official job offers at the event itself so adequate preparation is greatly beneficial. Success at the event could lead to the start of your career right there and then!

## Non-Japanese speakers

Many Japanese companies are also interested in recruiting non-Japanese speakers with outstanding science or technical skills. If you are a non-Japanese speaker who would like the opportunity to work in Japan and/or for a Japanese company, this event could offer invaluable support in your job-search. Please view individual company profiles on CareerForum.Net for information on which positions may be available to you.

DISCO Inc.

Founded in 1973, DISCO Inc. is a human capital consulting firm headquartered in Tokyo. For 28 years we have operated Career Forums in various countries around the world, including Australia, the USA, Japan, UK, and China, creating job opportunities for students as well as opportunities for companies to hire skilled global talent.
